

The Federal Communications Commission  
445 12th Street, SW  
Washington, DC 20554

Dear The Federal Communications Commission,

Hey!!! what is the thing with our(??) government. Always new ways to get more unnecessary funding for projects most Americans would vote against.

Now you wish to change the tax on use of the telephone.

I am not in favor if this action and won't be until the U. S. Congress relinquishes its theft of tax dollars via their retirement fund. (or until hell freezes over.

If I recall the last time any government agency placed too much on collection of taxes our country was formed.

Hal Swanson 709 S. York St.

Denver, CO 80209

Sincerely,

Hal Swanson
